Claim Objections

Claims 3-15 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other in the alternative form only. See MPEP § 608.01(n). Accordingly, the claims 3-15 have not been further treated on the merits.

Claim Rejections - 35 USC § 112

Claims 16-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Regarding claims 16 and 17, the phrase "for example" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, and 16-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Fehrenbach U.S. Patent 5,354,051 or Amundson U.S. Patent 4,489,940

Both Fehrenbach and Amundson disclosed a barrier comprising a reflecting surface, and wheels.
